Beretania Sts.

WHY ANDREWS
WAS BOUNCED

(Continued from page 1.)

It was at Kailua yesterday that the High Sheriff announced to Andrews the removal.

"When I felt Honolulu," said High Sheriff Henry, "it had been practically decided to remove Sheriff Andrews. There had been a number of charges and complaints made against him, but I desired to give the situation some personal investigation. While my stay was brief in Hilo, I inquired into some of the charges against Andrews, and after leaving Hilo also inquired carefully into the conduct of police matters on the island."

"I will say that the reason for the removal of Andrews was partially due to his having engaged in the garbage enterprise and especially for the lax enforcement of the laws by certain of his deputies. I discovered that there was a slackness and inefficiency on the part of the deputies at South Kona, North Kona and North Kohala to enforce the laws as on the statute books. There were violations of the liquor and gambling laws and a general looseness of administration in those districts. Sheriff Andrews admitted such to be the fact, but said that the difficulty was in securing efficient men as officers. The general sentiment of the leading residents in those districts seemed to be that the police were inefficient and were not properly enforcing the laws."

"I did not make any investigation of the charges against Andrews of having collected license money through his deputies. That matter has, I believe, been investigated by another department of the government. I will say, however, that Andrews' removal was not due to any dishonesty on his part in his conduct of police affairs. It was because of the inefficient work of certain of the men under him and his having engaged in the garbage enterprise outside of his police department business. That garbage belongs properly to the Board of Health and should be taken over by that department. The police change will not go into effect until February 1, as J. C. Searle, who was appointed to succeed Andrews, could not get ready to take charge before that time."

"Whether there will be any changes of the deputies in the two of the three districts mentioned I can not state at this time, for that is a matter that will be left with the new sheriff. There will however have to be a successor appointed to Deputy Sheriff, C. K. Stillman of North Kohala, for, from my investigation, I found matters to be in a much worse condition there than in the Kona districts. It may be possible that the deputies of the Kona districts can be prodded up into doing some efficient work. In such an event they may not be removed, although the new sheriff will finally settle about that matter. L. M. Baldwin is not to finally succeed Andrews. I did not investigate the matter of Andrews' petitions where he was said to have paid 15 cents for every name. I was told that Andrews had offered to pay a man named Brown for having circulated such petition, but I was given to understand that the offer had been a gratuitous proposition on the part of Andrews."

LADYBIRDS TO
ATTACK HOPPER

ENTOMOLOGIST PERKINS RETURNS FROM AUSTRALIA WITH A LOT OF INSECTS.

"Ladybird, ladybird, fly away home" is invariably the childish injunction given to a captured ladybird and the terrible conditions described as existing in the ladybird's domicile is never known to fall in making her wing her way at once to whatever place her alleged children may be. It will be a cruel child though who fools any of the new ladybirds with any such wild-eyed story, for R. C. L. Perkins the government entomologist has brought them all the way from Australia and that will be a long journey home for a ladybird.

The scientist arrived last night on the Mowara having been in Australia for several months in company with Prof. Koebke in search of ladybirds which destroy the leaf hopper.

They examined the Australian cane fields thoroughly and discovered the little insect which is the pet aversion of the leaf hopper. They secured a large number of specimens and brought these on with them in the refrigerator. The insects will be liberated in a few days and the entomologists are sanguine that in a short time they will effectually check the ravages of the insect which has proved so dangerous to the sugar cane here.

Professor Koebke will remain in Australia for some little time. Entomologist Perkins will have a long report to submit on his investigations.

WALES KINCAID DEPARTED.
Wales Kincaid was a departing passenger for San Francisco today on the bark Olympic. A number of his friends were at the Railway wharf to say aloha.

brother." The two attendants fled from view and suffered their god to be led away.

The zebra arrived safely this morning by the steamer W. G. Hall and was sent to Gear, greatly to the latter's astonishment. From what Doyle learned in Kona it appears that there was a mate to the present god but the mate died.

Such at least is the story that came with the strange animal.

ARROYO TRIAL
GOES SLOW

JURY WAS TAKEN LAST NIGHT TO VISIT THE SCENE OF THE SHOOTING IN IWILEI.

The trial of Eugenio Arroyo for the murder of Adolfo Riveiro was continued before Judge Robinson this morning at 9:30.

Yesterday afternoon the jury with the judge, officers of the court, counsel and prisoner went down to Iwilei where the witness Juan Colon pointed out the spot that the fight between the accused and the deceased took place and where the shooting subsequently occurred. The spot looked very much like any other vacant lot with a ditch in it but Attorney Strauss for the defense seemed to think that it was necessary to take the jury there. The jury spent last night at the Young hotel.

The cross examination of Colon not having been concluded yesterday Attorney Strauss proceeded with it today. He went over the ground of the story as told by Colon in his evidence in chief but failed to shake the witness in any particular.

Julian Rondon was the second witness put on by Attorney General Andrews. Rondon is another of the four Porto Ricans who accompanied Arroyo and Riveiro to the vacant lot near the prison where Riveiro was shot. In almost the same words as those used by the first witness he detailed the meeting of the accused and the deceased at the corner of Hotel and River streets, of their quarrel over some women of the town who had transferred their somewhat fickle affections from one to the other, and of Arroyo's challenge to fight which Riveiro accepted. He agreed that Arroyo's challenger had knocked the other man down without warning and that the shooting had been done deliberately by the accused after a struggle in which Riveiro had allowed him to rise from the ground."

The cross-examination of Attorney Strauss was again of a wearisome and long drawn out. It wandered into the movements of the witness hours before the commission of the deed by Arroyo and the Attorney General finally objected to the line that it was taking. Judge Robinson sustained the objection.

The trial continues this afternoon and if it is not finished before evening a night session will be held.

SOME THEORIES
ABOUT THE SUN

NO IMMEDIATE DANGER THAT IT WILL BURN ITSELF OUT SO WE WON'T WORRY.

The current theories concerning the sun and the planets are that the sun was once vastly hotter than it is now, and that for a long period it has been slowly but steadily cooling. This doctrine is built on the notion that the sun is a mass of fire in progress of intense and fierce combustion, and that, like any other fire, unless its fuel is replenished, it must burn out and become extinguished. Some astronomers teach that the sun is supplied with fuel by vast quantities of comets and meteors that are shoveled into it by some process of nature but other astronomers like Sir Robert Ball reject the possibility of any such systematic supply of fuel and they believe that the sun as it burns out shrinks in size at the rate of 220 feet of its diameter in a year. As the mass of the sun is something like 880,000 miles in diameter, it is calculated still to last for a good long time, but there is something extremely melancholy and saddening in the idea that our grand luminary will one day burn out with a spasmodic gleam and a whiff of ill-smelling smoke like the snuff of a candle.

It is with great satisfaction that we are allowed to believe in the possibility that the sun is made of radium, and that it can continue to give off heat and light for an inconceivable lapse of ages without being in the least diminished either in size or capacity to warm and illuminate us. The idea that it is not losing 220 feet of its diameter yearly is particularly consoling.

There is another suggestion which would enable our solar system to continue its operations without either suffering an instantaneous conflagration or being consumed by slow combustion, and this is that the sun and the various bodies which revolve around it constitute an electric dynamo and an incandescent lamp on such a scale as could be designed and created by combined omniscience and omnipotence, to go on its beneficent course forever. Such a notion meets only the contempt of science, which insists upon the existence of actual fire in the sun, that must sooner or later burn itself out to complete extinguishment. Until, however, astronomers like Prof. Langley shall make a flying machine without balloon attachment that will enable human beings to fly, their vagaries concerning the playing-out of the sun may well be neglected by all except full-fledged scientists.—New Orleans Picayune.

NEBRASKAN IS EXPECTED.

The S. S. Nebraskan is expected today from San Francisco with five days' later mail. She will probably sail for Kahului Monday night.

SAILING VESSELS DEPARTING.
The bark Olympic sails today for San Francisco and the schooner Alumna will probably get away today for South Bend.

Fine Job Printing, Star Office.

HAS MORGAN
PLACED M'BRYDE?

A RUMOR THAT HE HAD SUCCEEDED IN SELLING THE ENTIRE ISSUE.

The stock market continues strong and active. The rise in the quotation for 96 degree centrifugal sugar, of course, had a bull influence on stocks.

One of the most important transactions reported on the exchange this morning was the sale of \$4,000 of Haiku bonds and \$25,000 of Paia bonds, all at 102. These are six per cent bonds, and their sale at this figure is said to be indicative of the trend of the money market. There is and will be from now on an immense amount of money seeking investment, and as a natural result there is a growing feeling that interest rates where security is good will go down. Six per cent bonds at 102 reduces the interest return to less than six per cent.

The money that is now going into sugar securities is all island money. There are no new bond issues, and hence the search for gilt edge investment, it is figured by some, will tend to raise the price of all of the recognized first class bonds now on the market.

There were several advances in the line of sugar stocks, Hawaiian Sugar went up a dollar-and-a-quarter a share since yesterday's quotation. Oahu went up five dollars since the last sale reported. There was an active inquiry for Waialua which is firm at 65. Ewa is strong at \$28.50, and McBryde holds its place firmly at \$3.50.

In connection with McBryde, there was a report current today that James F. Morgan is on his way back from San Francisco, and there is an undercurrent of wonder whether he succeeded in placing the McBryde bonds which he was credited with going up there to place. If he has placed these bonds, there is practically unanimous opinion that the stock will go very much higher than it is now.

With the news that sugar had passed the five cent mark there was a general discussion of former sugar quotations and a search among old records for the time when it was five cents a pound before. The result of this searching is presented in another place in this issue.

BECKLEY QUILTS
A COMMISSION

HE DOES NOT WISH TO HAMPER THE WORK OF THE COUNTY ACT BOARD AND RESIGNS.

F. W. Beckley has resigned from the County Act Commission to which he was appointed by Governor Carter. His resignation came as considerable of a surprise as it is so long since he has been heard of in connection with the commission that scarcely anyone remembered that he ever had anything to do with it at all. His letter of resignation runs thus:

Pukoo, aolokal, Dec. 28, 1904.

Governor Geo. R. Carter.
Sir:—The shortness of time remaining and present circumstances preventing my giving my whole attention to the important work now before the Commission and rather than be a hindrance to the high trust reposed in us by you and the people who are waiting the final result of our deliberations by my continued absence from Honolulu do I take this step with regret and tender you herewith my resignation as a member of "The Commission to Draft a County Law."

With best wishes for the actual realization of the people's desire and the continued success of your administration, I am your obedient servant.
(Signed) F. W. BECKLEY.

ROBINSON WILL
NOT TRY CASE

BEING AN ELK HE WILL NOT PASS JUDGMENT ON THE PACIFIC CLUB'S APPEAL.

Judge Robinson this morning refused to take the appeal case of the Pacific Club against the decision of Judge Whitney finding the club guilty of selling liquor without a license. The judge took this position because he is a member of the Elks and that organization is in the same boat with the Pacific Club in the matter of supplying liquor to members. He transferred the case to Judge De Bolt.

The Attorney General for the government and Attorney Breckons for the club, appeared before Judge De Bolt this morning and arranged to submit the case on briefs forthwith. The judge promised a decision at as early a date as possible. In any event it is certain that the case will go to the Supreme Court.

HURT AT HONAUNAU.

James Keanu was thrown from a wagon yesterday at Honaunau and badly injured.

HONOLULU STOCK EXCHANGE.

Friday, January 13, 1905.

AN ENJOYABLE OUTING.
The most attractive day's outing is that afforded by the excursion down the railroad line. The HALEIWA LIMITED, a first-class train, leaves Honolulu every Sunday morning at 8:23 o'clock making the run in two hours, the rate for round trip being only \$2.00. From 10:22 a. m. until 3:10 p. m. is spent at the beautiful HOTEL HALEIWA, with fresh and salt water bathing, tennis, golf drives and walks, shooting or fishing and you are back in town at 10:10 o'clock in the evening.

COMMISSIONER'S SALE
OF
Real Estate

DESIRABLE
RESIDENCE
PROPERTY
NEAR KAMEHAMEHA SCHOOLS.

Fronting King street
on Main Line of
Rapid Transit Co.

Notice is hereby given that the undersigned, William R. Sims, Commissioner under and by virtue of a decree of foreclosure and sale duly made and entered by the Honorable W. J. Robinson, Third Judge of the Circuit Court of the First Judicial Circuit, Territory of Hawaii, at Chambers, on the 29th day of December, A. D. 1904, in a certain cause in Equity pending in said court, wherein L. F. Alvarez is plaintiff and Mary Bertleman, Frank C. Bertleman, James E. Fullerton and Saml. Savage, Trustee are defendants, will sell at Public Auction, subject to confirmation of the Court, aforesaid,

ON SATURDAY, JANUARY 14th, 1905,
at 12 o'clock noon of said day,

At the front (mauka) entrance of the Judiciary Building, in Honolulu, Island of Oahu, Territory of Hawaii, the following described property to wit: All that certain piece or parcel of Land known as the Kula of Punaloa, mauka of the King street road, at Kailua, Honolulu, Island of Oahu, Territory of Hawaii, the same being a portion of the land described in L. C. A. No. 803 to A. Adams and more particularly described by metes and bounds as follows:

Beginning at the south corner of this lot on the mauka side of King street and adjoining the west corner of C. Costa's lot and running as follows by true bearings:

1. N. 28° 25' E. 338.0 feet along C. Costa's lot.
2. N. 48° 50' W. 185.5 feet along Mutch and Campbell lots.
3. S. 42° 20' W. 401.0 feet along fence to King street.
4. S. 64° 00' E. 217.0 feet along King street to initial point, containing an area of 7300 square feet, a little more or less, and being the same premises conveyed to Mary Bertleman by deed of Mary Lucas and husband dated the 13th day of November A. D. 1902.
Upon the foregoing described premises there is a two story dwelling in use containing large parlors, bedrooms, bath etc., also carriage house and stables, servants' house and wash house. The lot is well fenced and laid throughout with water pipes.

TERMS OF SALE: 10 per cent of purchase price to be paid in United States Gold Coin on fall of hammer at sale, balance in like coin upon execution and delivery of deed, drawn at the expense of purchaser.

Further particulars furnished by Frank Andrade Esq., Attorney for plaintiff, Stangenwald Building, or by the undersigned at the said Judiciary Building.

WM. R. SIMS, Commissioner.
Honolulu, January 3, 1905.
101s—Jan. 3, 4, 5, 6, 7, 9, 10, 11, 12 and 13.

Oregon Restaurant

King Street Near Nuuanu.

Serves the best 25 cent meal in town.
